PARK DEPARTMENT
FIFTY-FIRST ANNUAL REPORT
OF THE
BOARD OF COMMISSIONERS
FOR THE
ELEVEN MONTHS ENDING DECEMBER 31, 1925

PRINTED FOR THE DEPARTMENT

1926

ANNUAL REPORT
OF THE
PARK DEPARTMENT
FOR THE
ELEVEN MONTHS ENDING DECEMBER 31, 1925.

BOSTON, December 31, 1925.

HON. JAMES M. CURLEY,
Mayor of Boston.

DEAR SIR,— The Park Commission respectfully submits its annual report for the year ending December 31, 1925. It reviews the relation of the park system to recent park developments.

The report of the Deputy Commissioner, hereto attached, describes fully the details of our year.

Very respectfully yours,

JAMES B. SHEA, *Chairman,*
CHARLES A. COOLIDGE,
MYRON P. LEWIS,
Commissioners.

REPORT OF THE DEPUTY COMMISSIONER.

BOSTON, December 31, 1925.

To the Board of Park Commissioners.

DEAR SIRs,— I respectfully beg leave to submit a report of work performed under the direction of your Board during the year 1925.

The year 1925 witnessed a great many alterations and improvements, additional playgrounds, extensions to the Zoo, etc.

In compiling this report I will enumerate only the more important items.

One of the most important changes was the opening of Franklin Park to autos, which required the widening and resurfacing of the road in Franklin Park, between Blue Hill avenue and Forest Hills street. Work was started on December 15, 1924, and completed in August, 1925, at an estimated cost of \$117,300.

The policy adopted by the Park Department of building bleachers on the more important and larger playgrounds was continued on the William Eustis Playground, Roxbury, where renovations to the playground and the building of bleachers was completed in the early summer at a cost of \$46,000.

Another important improvement was the grading and loaming of the William H. Garvey Playground in Neponset. This playground, which has been a morass for a number of years, was placed in playable condition early in the spring at a cost of \$26,000; a field house was also built on this playground at a cost of \$24,000. This section of the city is now taken care of for a number of years.

A beginning was made on the changes in the Fens in the securing and spreading, etc., of the filling for the new road at a cost of \$7,770.

A new playground in Roxbury, in the vicinity of Heath street, near the Jefferson School, was laid out and graded at a cost of \$12,000.

Another new playground that was graded and loamed

was the Brookside Avenue Playground, Jamaica Plain; also Wellington street, East Boston.

A new field house was built at the John H. L. Noyes Playground, East Boston, at a cost of \$22,000.

The policy of permanent road surfacing was continued during the year and the following roads were laid down to bitulithic pavement:

Commonwealth avenue, between Leamington road and Chestnut Hill avenue, \$10,000.

Riverway, from Huntington avenue to Longwood avenue, and the widening of same, \$66,000.

ZOOLOGICAL GARDEN.

The death rate at the Zoological Garden was again exceptionally low, in fact one of the lowest in the country.

A number of important acquisitions which were purchased during the year were as follows:

A large private collection of birds from W. R. Sampson, which comprises 190 specimens; a large collection of ducks and geese of various species; pair of musk oxen, one Ceram cassowary, two crowned cranes, two marabou storks, two griffon vultures, two Ruppel's vultures, three Egyptian white vultures, four Egyptian black vultures, four African sand grouse, four chukar partridges, four scarlet ibis, and two patas monkeys.

A large number of animals were born during the year, the most important being that of a yak calf, the first ever born in Boston. Other births were buffalo calf, llama, two red deer fawns, two sika deer fawns and kangaroo.

Among the gifts to the Zoological Garden were six reindeer, presented by the Boston *American*, and a lion cub presented by Mr. and Mrs. A. M. Creighton.

The attendance during the past year showed that public interest in the institution is steadily increasing. The police estimate that 50,000 men, women and children visited the Zoological Garden the first Sunday of daylight saving.

AQUARIUM.

The end of the year finds the Aquarium in better shape than ever before. For the first time in years the Aquarium has gone through the entire winter without an empty tank.

One of the outstanding accomplishments was the renewing of the salt water piping system which was replaced by hard lead pipe which has a mechanical strength much greater than soft lead. The Boston Aquarium is the first institution of its kind to use this piping for salt water work.

In September the first concrete exhibition tank in the Aquarium was completed and quickly demonstrated its vast superiority over the old wooden tanks.

At the present time we have over 1,500 specimens with about 112 varieties.

We are indebted to the Massachusetts Fish and Game Commission for 10 adult small mouth black bass and 100 Chinook or King Salmon.

The hatchery is rapidly becoming an important factor in the supply of trout for exhibition.

The total attendance during the year was 250,000; largest monthly attendance was 55,000.

The Boston Aquarium at the present time ranks fifth in size among the public aquariums of this country. It is surpassed by New York, Philadelphia, San Francisco and Detroit in the order named.

GYMNASIA.

The year 1925 was very successful. The gymnasium classes were very popular, and the monster demonstration held at the Arena in which classes from the various gymnasia were brought together for the first time proved a revelation to a great many people.

BEACHES.

Not one life was lost during the year 1925 on any of our beaches under the control of this department. Larger crowds than ever before patronized the beaches, the houses being filled to capacity.

The L Street Bath, the most popular bathhouse in the country, will have to be rebuilt before 1926 bathing season.

MOTH AND TREE DIVISION.

The entire city was inspected for the gypsy, brown-tail, Oriental and satin moth. The gypsy moth infestation was very light; the brown tails were only found

in one place; the Orientals had decreased, and the satin moth had increased — over 60,000 inspections were made and 24,000 places sprayed.

A large number of street trees were planted and a great many removals made.

This division deserves special commendation for the large amount of work performed during the past year.

BAND CONCERTS.

During the summer band concerts were given on Boston Common, Marine Park, Jamaica Pond, Franklin Park, World War Memorial Park, McConnell Park, Dorchester, and Madison Park, Roxbury, also Everett square, Hyde Park.

CEMETERY DIVISION.

Mt. Hope.— An area was developed for single graves and a large amount of planting was done, all the main avenues were resurfaced. This cemetery was a credit to the city during the year.

Fairview.— A large amount of land was developed for single grave lots; some of the roads were rebuilt and a great many improvements made throughout the year.

In the remaining eighteen cemeteries a large number of important improvements were made and this division is in excellent condition at the present time.

I again wish to call the attention of the commission to the preservation of old grave stones, especially those in King's Chapel and the Central Burying Ground, which are fast disintegrating.

RECOMMENDATIONS.

I respectfully recommend that the two one-way roadways be completed as rapidly as possible in the Fens, owing to the number of accidents which will occur there otherwise.

The widening of the Riverway, especially at the curve between Longwood avenue and Brookline avenue, should be completed this year.

The side road, from Washington street to Leamington road, should be rebuilt and resurfaced, owing to the large number of new buildings erected, which will make this area extensively traveled during the ensuing year.

The traffic road in the Arborway, from Pond street to Centre street, should also be rebuilt.

Field houses should be erected on various playgrounds and the playgrounds resurfaced.

I also recommend that no further playgrounds be purchased until such time as the present playgrounds are put in first-class condition.

Respectfully submitted,

W. P. LONG,
Deputy Commissioner.

Location, Area and Equipment of Parks and Gardens, 1925.

PARKS AND GARDENS.	Area.	Location.	Equipment.
Andrew Henry Square *	2,068 sq. ft. .048 acre	Junction of Adams and Granite streets.	Grass area.
Fred C. W. Olsen Square *	700 sq. ft. .016 acre	Junction of Adams and Codman streets.	Grass area.
Algonquin Square	1,728 sq. ft. .04 acre	Algonquin and Bradlee streets.	Grass area and three flower beds.
